## Portable Discus Circle Platform

The 3770 Portable Discus Circle Platform consists of a 10'x10'x1.5" wooden platform and a 12mm track surface underneath for traction. The wood platform is made up of 2 layers of 3/4" plywood.

The wooden platform breaks down to (2) two sections of 5'x10' for easy transport and storage. The discus ring meets regulation requirements (2.5m dia).

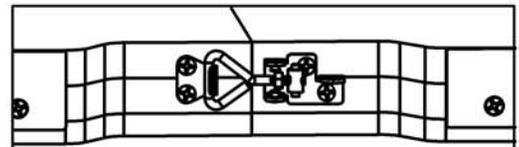

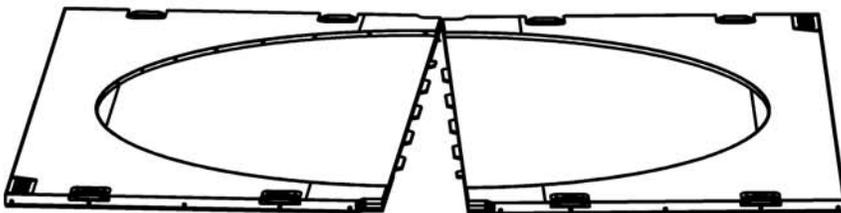

The wood platform is painted with a water-based grey paint to allow for ease of repainting by customer if desired.

The inner ring is painted with a base coat of water-based grey paint and finished with an anti-slip clear coat

### NOTICE

Never move the platform while both sides are assembled. Always un-latch and separate before moving.
