10	2	1-1/2" Lg. MACHINE BOLT			

Detail "A"

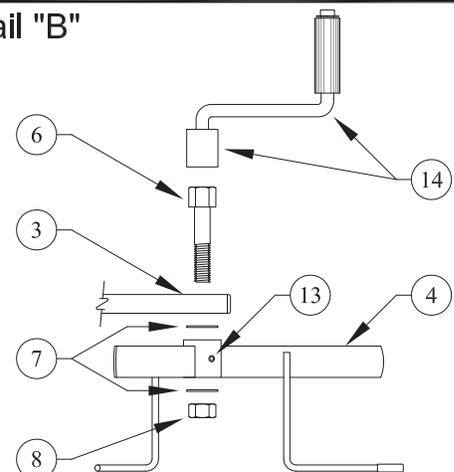

TOOLS NEEDED

- #3 HEX KEY
- 2 CRESCENT WRENCHES

1. Unpack all parts and check against parts list to ensure that all have been included.
2. Assemble four 4" swivel casters (5) into base frame (1).
3. Assemble upright weldment (2) to base frame (1) using 2-1/4" lg. machine bolt (9), washer (11) and hex nut (12).
4. Assemble upper support tube assembly from Step No. 3 to the upper support tube (3) using two 1-1/2" lg. machine bolts (10), washers (11) and hex nuts (12).
5. Assemble net holders (4) to the upper support tube (3) using net holder bolts (6), two net holder washers (7) and net holder nut (8). See Detail "B" for proper location of all parts. Tighten nut (8) until snug - do not overtighten, as net holder (4) must be allowed to spin freely, without wobble.
6. Secure net holder (4) to net holder bolt (6) using the set screw (13).
7. Check operation of net holders (4) with crank assembly (14). Net holders should spin freeley, but without any wobble. Tighten or loosen nuts (8) from Step No. 5 as required.
