02406-X00 - TAPE APPLICATORS

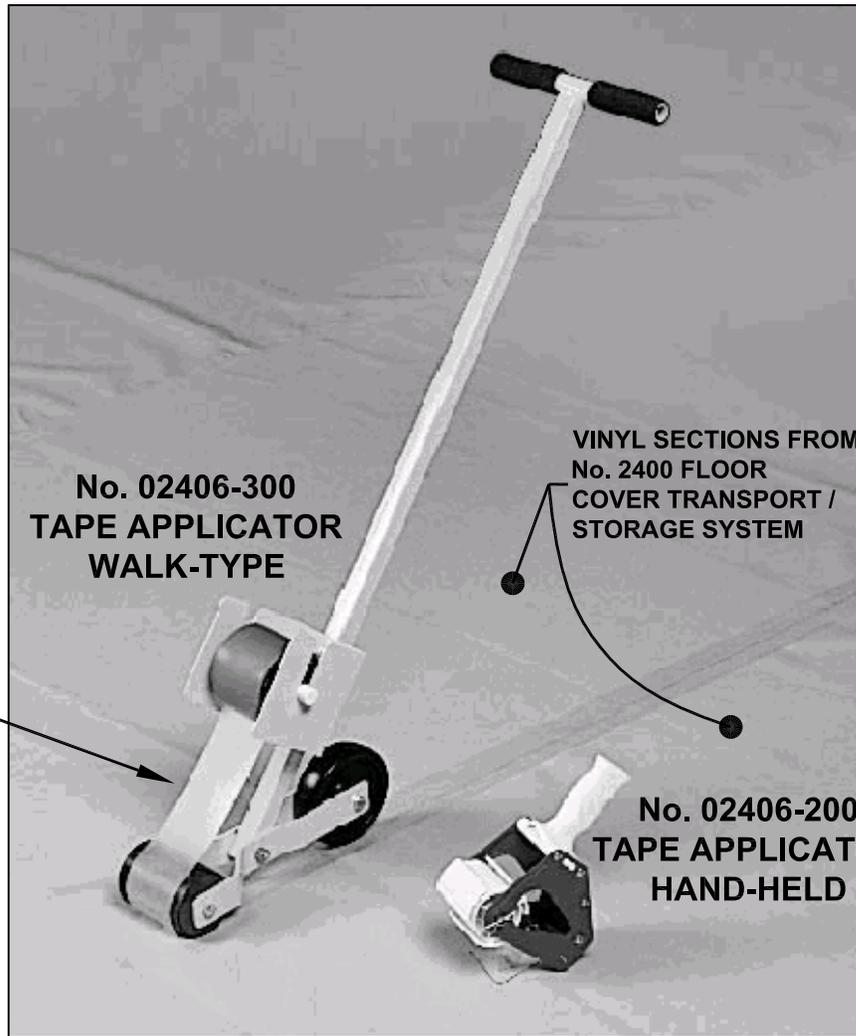

TAPE APPLICATORS FOR No. 2400 FLOOR COVER SYSTEM

SPECIFICATIONS

PORTER No. 02406-200 TAPE APPLICATOR – HAND-HELD

Hand-held tape applicator shall provide a means to apply pressure-sensitive floor cover seam tape to overlapping vinyl sections in one fast and easy step.

Applicator has a heavy-duty steel frame and a comfortable nylon handgrip.

Applicator holds one roll of No. 02406-112 tape (3" wide x 55 yards long with a 3" diameter core). Applicator includes a brake to keep tape properly loaded. Also included are a wipe-down flap to press the tape to the vinyl, and a serrated blade to cut the tape.

Tape is not included. Specify No. 02406-112 Floor Cover Seam Tape below.

PORTER No. 02406-300 TAPE APPLICATOR – WALK-TYPE

Walk-behind tape applicator shall provide a means to apply pressure-sensitive floor cover seam tape to overlapping vinyl sections.

Applicator has a heavy-duty steel frame and comfortable foam-covered handgrips. Handle is adjustable, allowing operator to remain in a comfortable walking position while applying tape.

Applicator holds one roll of No. 02406-112 tape (3" wide x 55 yards long with a 3" diameter core). A large built-in roller provides constant pressure to the tape while being applied, ensuring good contact between the tape and the vinyl.

Tape is not included. Specify No. 02406-112 Floor Cover Seam Tape below.

PORTER No. 02406-112 FLOOR COVER SEAM TAPE (CASE OF TWELVE ROLLS)

Pressure-sensitive clear tape shall be used to secure vinyl sections from the No. 24XX Floor Cover Transport/Storage system to each other. Tape is easily removable, without leaving adhesive residue.

Tape is a polypropylene film (2 mils thick) with an acrylic adhesive. Tape is 3" wide, and is supplied in a case of twelve rolls, each roll being 55-yards long. Rolls are supplied on a 3" diameter core, for use with No. 02406-200 or 02406-300 applicators.
